

## **MBB Industries AG remains on growth track based on successful first Quarter 2013**

- Revenue rise by 77% to €55.5 million
- Adjusted consolidated earnings rise by 125% to €3.3 million

Berlin, 25 April 2013 – MBB Industries AG (ISIN DE000A0ETBQ4), a family-owned, medium-sized corporation, was able to seamlessly follow on from the successful 2012 results in the first quarter of 2013. First quarter revenues increased by 77% to €55.5 million from €31.4 million during the same period in 2012. Beside the good performance of all existing portfolio companies a major contribution came from MBB Fertigungstechnik which was acquired at the end of Q1 2012 and therefore not included in first quarter revenues 2012. Adjusted for extraordinary income from first consolidation of MBB Fertigungstechnik in Q1 2012 the operating income increased by 125% to €3.3 million following €1.5 million in 2012. Including this extraordinary income from last year's first-time consolidation the group's earnings would have been €3.2 million for Q1 2012. Earnings per share improved to €0.51 after €0.49 in the first quarter 2012.

The equity position gained an all-time high of more than €60 million with an improved ratio of 37% compared to 33% end of Q1 2012.

Net liquidity amounts to €54.3 million end of first quarter 2013 following €45.2 million end of fiscal year 2012. With this position MBB Industries remains very comfortable in supporting planned organic growth of the existing portfolio as well as funding acquisitions for further growth. Hence, MBB Industries is very optimistic regarding the prospects of its business.

The report for the first quarter 2013 will be published on 31 Mai 2013 at [www.mbb.com](http://www.mbb.com).
