

MBB Industries AG posts revenue and earnings growth after first nine months of 2013

- Revenue grows 14.4% to €172.8 million
- Consolidated net profit up 4.2% to €9.5 million

Berlin, 30 October 2013 – MBB Industries AG (ISIN DE000A0ETBQ4), a family-owned, medium-sized group focusing on technology and engineering services, has increased its revenue and earnings in the first nine months of 2013. After the first three quarters of 2013, revenue was up 14.4% to €172.8 million after €151.0 million in the same period of the previous year. Consolidated earnings improved by 4.2% to €9.5 million after previously €9.1 million. Per share, MBB Industries AG therefore earned €1.47 in the reporting period after €1.41 in the previous year. The good performance is also reflected in the statement of financial position. As at 30 September 2013, the equity of MBB Industries AG amounted to €63.2 million after €57.4 million as at the end of 2012. At the same time, cash and cash equivalents improved from €45.2 million at the end of 2012 to €52.6 million despite record capital expenditure in the 2013 financial year as a whole and the payment of a dividend of more than €3 million. MBB Fertigungstechnik, which was acquired in the previous year, has been included in figures since the second quarter of 2012.

In the third quarter of 2013, MBB generated revenue of €58.5 million compared to €61.2 million in the previous year and earnings of €3.2 million after €3.4 million in 2012. MBB anticipates that business performance will remain positive throughout the entire Group in the remaining months of 2013 and the 2014 financial year. Moreover, MBB is forecasting revenue and earnings contributions in 2014 from the record capital expenditure of around €20 million in existing holdings currently being implemented. These include, for example, the construction of a new paper machine at the Hanke Tissue holding, the expansion of MBB Technologies Ltd. (China) as a subsidiary of MBB Fertigungstechnik GmbH and preparations for the start-up of further series supply of van flooring for a renowned manufacturer of light commercial vehicles at the Delignit holding.

MBB Industries AG's sound liquidity resources allow not just the expansion of capacity at existing equity investments, but also the acquisition of further companies.

The quarterly report will be published on 29 November 2013 and will be available for download at www.mbb.com.

About MBB Industries AG:

MBB Industries AG is a family-owned, medium-sized corporation that has expanded steadily as a result of organic growth and the acquisition of other companies since it was founded in 1995. Achieving a long-term increase in the value of the individual companies and the Group as a whole lies at the heart of its business model. This business model has been highly profitable from the outset – substantial growth and sustainable returns will remain MBB Industries AG's goal in future as well.
