

## **MBB Industries AG proposes dividend increase to 55 cents per share**

### **Provisional figures for 2013 confirmed**

Berlin, 17 March 2014 – MBB Industries AG (ISIN DE000A0ETBQ4), a family-owned, medium-sized corporation confirms the provisional figures for 2013 previously reported. In the financial year just ended, record revenues and solid earnings level have been achieved. Accordingly an increased dividend of 55 cents per share is set to be proposed to the Annual General Meeting on 30 June 2014 after 50 cents per share in the previous year. This means that MBB Industries AG has continuously increased the dividend from 15 cents to 55 cents since its IPO in 2006.

Based on audited and final data, consolidated revenue 2013 increased by 11.4% to €228.2 million from €204.9 million in the previous year. Consolidated earnings in 2013 amounted to €13.5 million or €2.09 per share. Because of the first-time application of the amended IAS 19 previous years' earnings have been adjusted from €13.4 million to €13.6 million or €2.11 per share. Due to the good earnings situation MBB Industries AG capital resources further improved despite the dividend payment of more than €3 million in the financial year 2013. Equity rose from €57.4 million as at the end of 2012 to €67.8 million as at the end of 2013. The Group's liquidity climbed to €54.9 million after €45.2 million in the previous year. Thus, MBB Industries has sufficient liquidity to press ahead with both organic growth of the Group and acquisitions. MBB Industries expects to continue its profitable growth course in 2014 with sales of more than €250 million.

The 2013 annual report of MBB Industries AG with the final figures will be published and available for download at [www.mbb.com](http://www.mbb.com) on 30 April 2014.
